

Figure 1 is a block diagram of a system for providing medical care to a patient. The system includes a Patient 10, an MVP 12, a Wireless NW 20, an IWF 24, an Internet 26, a Host Data Archive 30, a PSTN 22, and a Medical Care Provider 28. The Patient 10 is connected to the MVP 12, which is connected to the Wireless NW 20. The Wireless NW 20 is connected to the IWF 24, which is connected to the Internet 26. The Internet 26 is connected to the Host Data Archive 30. The Wireless NW 20 is also connected to the PSTN 22, which is connected to the Medical Care Provider 28. The Wireless NW 20 is further connected to Voice 14, Data 16, Data Request 18, and Configure 19, which are all connected to the MVP 12.
